TERMINAL DISCLAIMER AND STATEMENT OF COMMON OWNERSHIP

In accordance with 37 C.F.R. § 1.321(b), Petitioner, Assignee Quantum Systems, Inc., a New Jersey Corporation having a place of business at Suite 602, 6 East Main Street, Ramsey, New Jersey, 07446, represents that it is the Assignee of the whole and entire right, title and interest in and to the above-identified Patent Application, which is a continuation-in-part of prior U.S. Patent No. 5,321,740 (the "prior patent"). The entire right, title and interest of the prior patent is also assigned to Petitioner, Quantum Systems, Inc. The above-identified application was assigned to Quantum Systems, Inc., by an Assignment recorded May 18, 1994, at Reel 7005, Frame 0822. U.S. Patent No. 5,321,740 was assigned to Quantum Systems, Inc., by an Assignment recorded June 20, 1991, at Reel 5757, Frame 0875. Accordingly, both the above-identified patent application and U.S. Patent No. 5,321,740 are commonly owned by Quantum Systems, Inc. Based upon a review of evidentiary documents relating to

the chain of title from the original owners (i.e. the inventors) to Quantum Systems, Inc., the undersigned hereby certifies that to the best of his knowledge and belief both the present application and the prior patent are commonly owned by Quantum Systems, Inc.

Petitioner, Quantum Systems, Inc., hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the present application which would extend beyond the expiration date of U.S. Patent No. 5,321,740 and hereby agrees that any patent so granted on the present application shall be enforceable only for and during such period that it and the prior patent are commonly owned. This agreement runs with any patent granted on the present application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, Quantum Systems, Inc. does not disclaim any terminal part of any patent granted on the present application that would extend to the expiration date of the full statutory term defined in 35 U.S.C. § 154 to § 156 of U.S. Patent No. 5,321,740, in the event that U.S. Patent No. 5,321,740 later: expires for failure to pay a maintenance fee, is held unenforceable or is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or is terminally disclaimed under 37 C.F.R. § 1.321, has all claims cancelled by a re-examination certificate, or is in any manner terminated prior to the expiration of its full statutory term, except for the separation of legal title stated above.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Sept 30 1994

Respectfully submitted,

MARK R. GREGOREK
President, Quantum Systems, Inc.
